

BANKING

Case Study - BPER Banca Keep the Group Connected and Boost the Business Continually

Background

BPER Banca S.p.A. formerly known as Banca Popolare dell'Emilia Romagna S.C. is an Italian banking group that offers traditional banking services to individuals, businesses and public entities. It is situated in Modena and has 1,273 outlets across 18 regions, making it one of Italy's major banks.

As a large conglomerate, they wanted to have a dedicated meeting room for frequent communication with their managers around the world and for high-level meetings with external investors.

Challenges

High demand for aesthetics

As a boardroom for high-level meetings, a desk covered with wires is not pleasing. It would leave an unprofessional impression when meeting with external investors.

Difficult in utilizing old devices

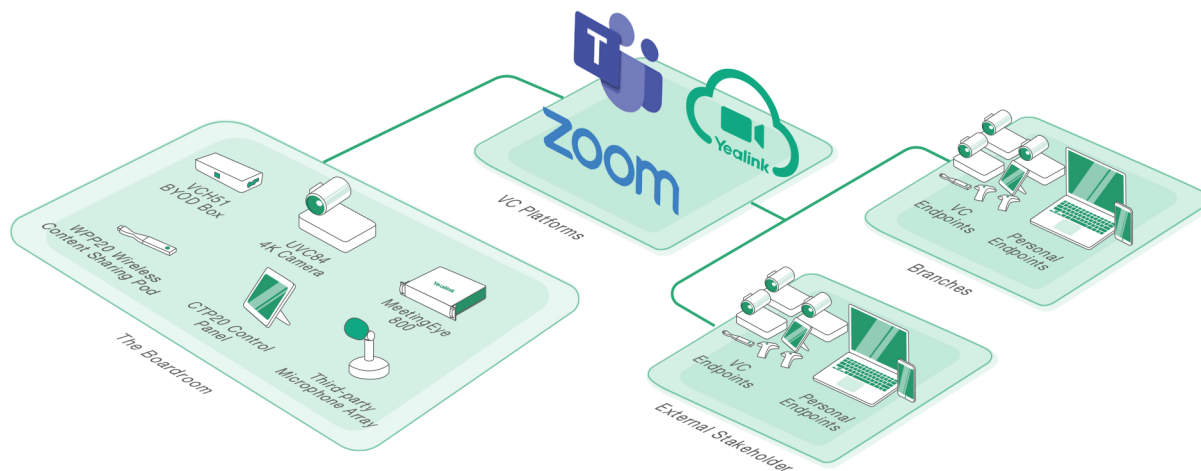

Not only does the new system need to be compatible with the existing microphone array but it also needs to be able to centrally controlled.

Full compatibility requirements

Each branch and customer may use a different conferencing platform, requiring devices to be compatible with various platforms.

Solution

Benefits

Professional Environment, Professional Impression

The solution makes the desktop free of cables, creating a neat meeting environment that makes customers feel pleasant and respected, even when communicating remotely. And the simple deployment also reduced IT costs.
